Objective:

A passionate individual with a strong interest in software development and artificial intelligence, seeking an opportunity to apply my skills in solving real-world problems while continuously enhancing my technical knowledge through practical experience. Enthusiastic about learning, teamwork, and problem-solving, and eager to contribute meaningfully to the growth and success of an organization.

Education:

Master of Computer Applications 2025-2027
Kumaraguru College of Technology
B.Sc. Computer Science 2022-2025
PSG College of Arts & Science- CGPA 8.88

Soft Skills:

- Problem solving
- Effective communication
- Time management
- Adaptability
- Quick learner

Technical Skills:

- Web Development
- Python, Java, C
- Data Analysis
- Canva

Project:

Collaborative Virtual Interior Design Platform

It is a web-based application that allows multiple users to collaboratively design and visualize interior spaces in real time. Using AI model like YOLO, Stable Diffusion and Web Sockets, it helps users explore design ideas, analyze furniture placement, and work together efficiently on interior design projects.

Food Recipe Recommender Chatbot

An AI-powered food recipe recommender system that provides personalized recipe suggestions via text or voice input. It uses NLP, machine learning, and similarity-based matching to deliver relevant recipes based on ingredients, dietary preferences, and cooking time, with step-by-step instructions available in both text and speech for a convenient, hands-free cooking experience.

Dynamic News Website

A dynamic news website that aggregates real-time news from trusted and organizes news by categories, offers search and subscriptions, and provides a clean, user-friendly reading experience.

Certification:

NPTEL Online Certification- Data Base Management System
Mind Luster- Data Visualization with Tableau
Scaler- Computer Networking Course: Master Computer Networking
Graphics Design & Multimedia

Internship / Research:

Creosen Services Private Limited- Back End Web Development
Nitroware Technologies- Collaborative Virtual Interior Design Platform

Personal Interest

Software Development
AI Applications
Problem Solving
Reading
Continuous Learning
